SUMMARY

Data reporting and business support professional with 9 months of hands-on experience building Power BI dashboards, Excel reports, and consolidated reporting models for U.S. real estate operations at Amherst - Main Street Renewal. Skilled in Excel, Power BI, Power Query/VBA automation, and SharePoint, with a track record of streamlining transaction documentation, improving reporting accuracy, and meeting recurring deadlines with minimal supervision. Bilingual (English C2) Electronics Engineering graduate with a credential in Artificial Intelligence and Business Data Analytics.

RELEVANT SKILLS

- **Transaction & Document Support:** Work order, purchase order, and contract-revision tracking, review, and reconciliation; audit-ready record-keeping and process documentation
- **Microsoft Office Suite:** Excel (PivotTables, Power Query, VBA, XLOOKUP/INDEX-MATCH, data validation), Outlook, Word, Teams; Office Open XML files (.xlsx, .docx, .pptx)
- **Collaboration & Systems:** SharePoint (multi-source data consolidation); fast adoption of new transaction management platforms; cross-functional coordination across multiple U.S. markets
- **Data & Reporting:** Power BI (data modeling, DAX), SQL, Python, Tableau, Salesforce — building dashboards and automated reporting workflows
- **Engineering & Design Tools:** AutoCAD; National Instruments software (LabVIEW, Multisim)
- **Communication:** Spanish (Native), English (C2 — IB Bilingual Diploma), Italian (B2); clear reporting and documentation for non-technical, U.S.-based stakeholders

EXPERIENCE

Amherst – Main Street Renewal	Jun 2025 – Mar 2026
<i>Data Reporting Specialist Intern – Construction Team</i>	<i>Heredia, Costa Rica</i>

- Validated recurring work order, purchase order, and contract-revision records for completeness and accuracy, strengthening documentation reliability across multiple U.S. markets.
- Coordinated with Supply Chain and Construction/Field Services partners to align on requirements and maintain audit-ready, well-documented tracking records.
- Automated recurring documentation and reporting workflows in Excel, Power Query, and VBA, cutting manual processing time on transaction tracking.
- Consolidated data from SharePoint and multiple operational sources into centralized reporting models, improving accuracy and visibility for cross-functional teams.

Swissol	Dec 2024 – Mar 2025
<i>Photovoltaic Systems Engineering Intern</i>	<i>Alajuela, Costa Rica</i>

- Maintained structured technical documentation and equipment/materials tracking records, ensuring accuracy and compliance with company standards.
- Built Excel-based reports integrating data import, cleaning, and validation to support timely operational decisions.
- Supported dimensioning and planning of photovoltaic systems using AutoCAD, and assisted with on-site installation and maintenance.

EDUCATION

Universidad Latina de Costa Rica (ULATINA)	Jan 2020 – Aug 2025
Bachelor's Degree in Electronics Engineering	

Universidad Latinoamericana de Ciencia y Tecnología (ULACIT)	May 2025 – Aug 2026
Micro-credential in Artificial Intelligence and Business Data Analytics	

CERTIFICATIONS

- Databases and SQL for Data Science with Python — IBM Skills Network (completed, Oct 2025)
- Data Analysis and Visualization Specialization — IBM Skills Network (completed, May 2025)
- Google Cloud Computing Foundations Certificate — Google Skills (in progress, expected Sep 2026)
